Highly skilled Frontend Developer with 6 months of experience in creating visually appealing and user-friendly websites. Proven expertise in HTML, CSS, JavaScript, and other front-end technologies. Motivated problem-solver with a strong eye for detail and a passion for delivering high-quality projects within tight deadlines. Collaborative team player with excellent communication skills and a track record of exceeding client expectations.

EDUCATION

University of Engineering and Technology Peshawar
BS Computer Science

01/2022 - 01/2026

PROJECTS

Github User Finder

Live Link: <https://github-user-finder-react.vercel.app/>

- Developed a React application to search for GitHub users and display their profiles.
- Implemented a **loader** feature to enhance user experience during data fetch operations.
- Utilized **GitHub API** for real-time data retrieval and dynamic content rendering.
- Gained experience in handling asynchronous requests and managing application state.
- Used **Toaster** for notifications to provide user feedback.
- Applied **Tailwind CSS** for responsive design and consistent styling.
- Implemented **Dark and Light Mode** switch using **LocalStorage** for a personalized user experience.

Blog Website

Live Link: <https://blog-website-react-app-write.vercel.app/>

- Developed a fully functional blog website using **React** and **Vite**, leveraging modern web technologies for optimal performance and user experience.
- Implemented a secure and scalable backend using **Appwrite**, providing user authentication, database management, and storage solutions.
- Utilized **Redux Toolkit** for efficient state management, and **React Router** for seamless navigation across different pages.
- Integrated **TinyMCE Editor** for rich text editing, enabling users to create and edit blog posts with ease.
- Employed **React Hook Form** for managing form data and validations, enhancing user interaction and data handling.
- Safely parsed and displayed HTML content using **HTML Parser**.
- Designed a responsive and visually appealing user interface with **Tailwind CSS**, ensuring a consistent and clean design across the website.
- Leveraged **React Redux** to maintain a cohesive application state throughout the website, improving the overall development experience.

Countries Data Using GraphQL APIs

- Developed a React application that fetches and displays detailed information about countries using the Countries **GraphQL API**.
- Implemented a **dropdown menu** for users to select a country and view its details such as name, capital, currency, languages, and states.
- Utilized **asynchronous data fetching** and **state management** to dynamically update the UI based on user selections.
- Applied responsive design principles to ensure a smooth and accessible user experience.

INTERNSHIPS

CodeAlpha, remote

03/2023 - 05/2024

Web Developer Intern

- Created basic web applications including a Calculator, TodoList, Analogue and Digital Clock, Counter, and Background Changer
