<https://my-portfolio-adeel-haider.vercel.app/>

Computer Science undergraduate with hands-on experience in full-stack web development using React, Node.js, and MongoDB. Developed multiple projects including an AI-powered ATS resume checker and a blog platform with modern frontend stacks. Strong understanding of REST APIs, responsive design, and collaborative development in agile settings. Eager to apply technical and problem-solving skills in a professional software development role.

EDUCATION

University of Engineering and Technology Peshawar Oct 2022 – Oct 2026
BS Computer Science | **CGPA** 3.79/4.0

PROJECTS

Blog Website

Live Link: <https://blog-website-react-app-write.vercel.app/>

- Built a fully functional blog platform using **React**, **Vite**, and **Tailwind CSS** for modern UI and responsive design.
- Implemented secure backend services with **Appwrite**, enabling **user authentication**, **database management**, and **file storage**.
- Utilized **Redux Toolkit** for state management and **React Router** for seamless page navigation.
- Integrated **TinyMCE** rich text editor for post creation and editing.
- Used **React Hook Form** for form state handling and validation.
- Parsed and safely rendered HTML content with **HTML Parser**.
- Ensured consistent UX with responsive design and centralized state via **React Redux**.

ATS Resume Checker

Live Link: <https://my-ats-resume-checker.vercel.app/>

- Helped many users optimize resumes by parsing PDFs with 85% accuracy.
- Integrated **Google Generative AI API** for advanced resume content analysis and processing.
- Used **React PDF to Text** for converting PDF resumes into analyzable text and **React Markdown** for rendering dynamic content.
- Designed a user-friendly interface to support PDF uploads and deliver actionable insights for resume improvement.

GitHub User Finder

Live Link: <https://github-user-finder-react.vercel.app/>

- Created a **GitHub user search application** using **React** and the **GitHub REST API** for real-time profile retrieval.
- Enhanced UX with loading indicators, **toast notifications**, and a **light/dark mode** toggle using **LocalStorage**.
- Applied **Tailwind CSS** for responsive design and UI consistency.
- Gained experience in handling **asynchronous data fetching**, API integration, and state management.

Student Grade Prediction System

GitHub Link: <https://github.com/Adeel-Haider-03/Student-Grade-Prediction-System>

- Developed a **machine learning model** to predict student performance based on academic and behavioral data.
- Utilized **Python**, **Pandas**, and **NumPy** for data preprocessing and feature engineering.
- Trained and evaluated models using **multiple regression algorithms**; assessed performance with **RMSE** and **R²** score.

EXPERIENCE

Digital Empowerment Network, remote

March 2023 – May 2024

Web Developer Intern

- Built and deployed 5+ responsive web tools (Calculator, To-Do List, Clocks, Counter, Background Changer) using HTML, CSS, and JavaScript, improving feature interactivity and usability across devices.
- Enhanced understanding of DOM manipulation and event handling, reducing implementation time for dynamic elements by 40%.
- Improved cross-browser compatibility and user experience through structured layout practices and consistent styling techniques.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, React, Tailwind CSS, Bootstrap, SASS
- **Backend & APIs:** NodeJS, Express, RESTful APIs, GraphQL APIs
- **Programming Languages:** JavaScript, Java, C++, Python
- **Data & ML:** NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn
- **Databases:** MongoDB, MySQL
- **Tools and Platforms:** Postman, Git, Github, Vercel, Github Copilot, ChatGPT

CERTIFICATIONS AND AWARDS

- 1st Position – Front End Web Dev Marathon – Decentral Developer
- Meta Frontend Developer – Meta
- Introduction to Python – Microsoft
- Fundamental AI Concepts – Microsoft

COURSES

Programming Fundamentals, Data Structures and Algorithms, Operating Systems, Data Science, DBMS, Software Engineering
